

## Friends supporting ECND everywhere!

Our friends and colleagues at All.Can - [the Health Policy Partnership](#) - are delighted to support European Cancer Nursing Day, with a briefing, an interview and a blog.

- A spotlight briefing on cancer nursing, highlighting the evidence and policy priorities across Europe (<http://www.all-can.org/spotlight-cancer-nursing/>)
- An interview with Georgia Papacleovoulou, Policy and Intelligence Manager at Pancreatic Cancer UK, on a new fast-track care pathway for pancreatic cancer with the clinical nurse specialist playing a vital role (<http://www.all-can.org/interview-pancreatic-cancer/>)
- A blog post on the crucial role of cancer nurses and why European Cancer Nursing Day is important (<http://www.all-can.org/blog-european-cancer-nursing-day/>)

Researcher Shannon Boldon said: “To mark this occasion, we will be launching a series of communications and tweeting throughout the day. You may recall that investment in supportive roles such as oncology nurses was a key recommendation in our All.Can report - and we want to contribute to this important discussion.”
